CAREER OBJECTIVE

Motivated and enthusiastic B.Tech Information Technology graduate seeking a Junior Full Stack Developer Intern position to apply my skills in React.js, JavaScript, Node.js, Python, REST APIs, and database technologies in developing scalable and user-centric web applications. Passionate about learning modern development practices, contributing to innovative solutions, and growing as a full-stack developer in a collaborative and fast-paced environment.

EDUCATION

• KGISL Institute Of Technology	2022–2026
B.Tech Information Technology, Tamilnadu	CGPA: 8.06
• SES Matriculation Hr. Sec. School	2021–2022
HSC, Tamilnadu	Percentage: 83.6
• SES Matriculation Hr. Sec. School	2019–2020
SSLC, Tamilnadu	Percentage: 85.6

TECHNICAL SKILLS

- Frontend** – React.js, JavaScript (ES6+), HTML5, CSS3 – responsive UI development
- Backend** – Python, Flask, Node.js(basic), REST API, design and integration.
- Databases** – MySQL – schema design, SQL queries, joins, CRUD operations; basic knowledge of PostgreSQL concepts
- Dev Tools & Cloud** – Git, GitHub, Jenkins (CI/CD basics), Linux (CLI), Docker, basic AWS exposures
- Core CS** – OOP concepts, Data Structures

PROJECTS

• SmartMart – POS & Inventory Management System	2024
Python (Flask), MySQL, React.js, Tailwind CSS, JWT, REST APIs	
–Built a full-stack application with a React.js frontend and a Python (Flask) backend, applying OOP concepts and REST API design principles.	
–Designed relational database schema (MySQL) and implemented JWT -based authentication with role-based access for Admin and Cashier modules; used Git for version control.	
• Python Quiz App	2025
Python (Flask), HTML5, CSS3, JavaScript, REST APIs	
–Built a full-stack quiz application with a Flask backend exposing REST API endpoints returning JSON data.	
–Implemented server-side answer validation, randomized question selection, and score calculation; consumed the API on the frontend with JavaScript fetch and a responsive HTML5/CSS3 UI .	

INTERNSHIP

- **Google Cloud Generative AI Virtual Intern** – Completed hands-on labs on **Python scripting**, **AI tools**, and **cloud-based services** via Google Skills Boost; worked independently on structured lab exercises following documentation standards. (2025)

CERTIFICATES

• Python Essentials (Certified) – Cisco Networking Academy	2026
• Database Management System (Part 1 & 2) – Infosys Springboard	2026
• SQL – Skill Rack	2022
• Git and GitHub – Coursera	2025
• Introduction to Linux (LFS101) – Linux Foundation	2025
• Jenkins (CI/CD) – Coursera	2022

ACHIEVEMENTS

- **AWS DeepRacer League 3.0** – Completed a 48-hour bootcamp involving python based reinforcement learning model training in AWS console. (Sep 2024)
- **Pyexpo Hackathon** – Built a working Python prototype under time constraints; demonstrated problem-solving and independent development skills. (2022)

SOFT SKILLS

- Willingness to Learn** – Actively explores new technologies, frameworks, and tools through self-study
- Works Independently** – Delivered complete project modules independently with minimal supervision
- Problem Solving** – Approaches technical challenges with logical, structured, algorithmic thinking
- Team Collaboration** – Experienced in Agile-style team coordination, code reviews, version control workflows

LANGUAGES

- English** – Proficient
- Tamil** – Native
